

Energy Consumption Analytics Report

Dataset: 45e5e3d5-b075-44c8-b626-4907fa050bbe.csv

Total Records: 2160

Total Consumption: 146292.06 kWh

Average Usage: 67.73 kWh

Maximum Usage: 177.63 kWh

Minimum Usage: 21.68 kWh

Anomaly Summary

Anomaly Count: 44

Optimization Recommendations

High - Peak Load Reduction: High energy usage is common during hours [18, 21, 19]. Shift heavy

Medium - Low Occupancy Optimization: Energy usage is high during low occupancy periods. Reduce

High - Night-Time Usage: Unexpected night-time energy usage detected. Check unnecessary device

High - Abnormal Spike: Large energy spike detected. Inspect device behavior and sensor readings
